

Unless I didn't do my best on the practice round, I wouldn't get through to the real round. When it was time to shine, I went up there and tried my best, I got caught in a huge net with stones all around it (It really hurt.) so, what I did is quickly found my way out of the net before my enemy ~~beat~~ + put their weapon near my neck. and I beat him up to the ground and and and he died, it wasn't a draw he just and I ~~was~~ won! YEEEEAAAAA!!!

Some fantastic work in this unit Heri. keep up the great work.
