# Maya People

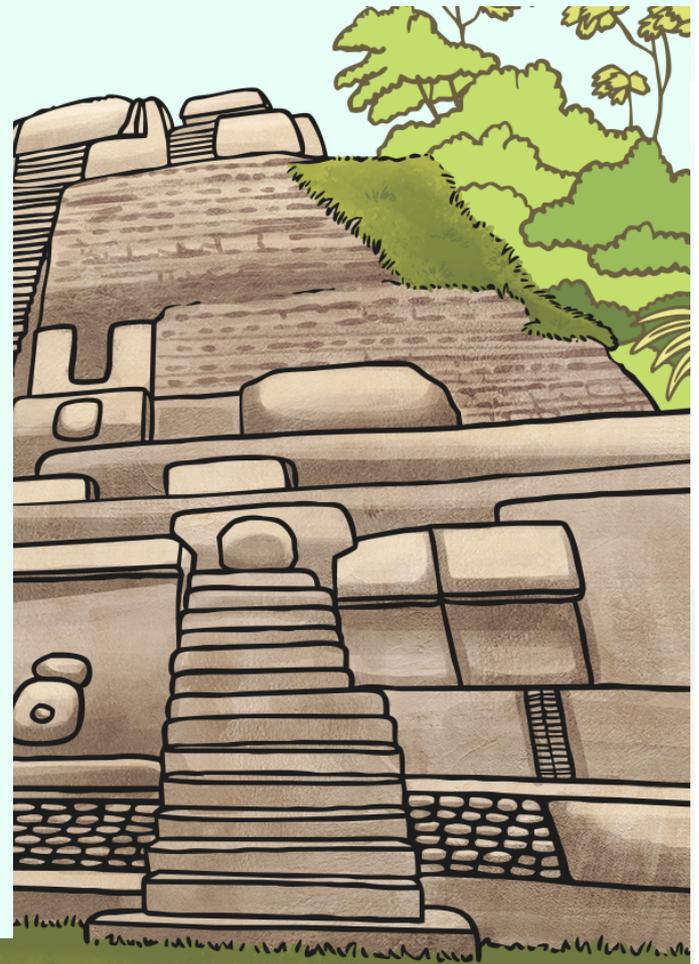

The ancient Maya people were quite a sophisticated bunch! They developed a writing and number system; studied and charted the stars and planets; invented three complex calendars to keep track of time; built impressive temples, palaces, monuments and cities; skilfully farmed the land and established a complex political system.

The ancient Maya were a clever, deeply religious people who valued intelligence and learning. This helps to explain how and why they were able to develop a complex, thriving civilisation which began over 2000 years ago.

# The Ancient Maya Place in Time

- The Maya civilisation came into being around 2000 BC and cities such as El Mirador became large and powerful from 300 BC onwards.
- By around AD 900, cities in the rainforest were abandoned and people moved up north to the highlands of Guatemala and the Yucatan. This was because there was an extensive drought in the area that lasted a long time and people needed to move out of the rainforest.
- Cities like Chichen Itza were still thriving in AD 1000 and the Maya civilisation was still in existence in AD 1500.
- It was due to the arrival of the Spanish in the 16<sup>th</sup> century that their ancient cities fell to ruin.
